About Directors

1. Lavish Joshi

A Master's graduate in Supply Chain Management with 14 years of extensive experience in global MNCs, Lavish has a proven track record of building agile, high-performing teams and driving operational efficiency across complex logistics networks. He specializes in designing and implementing sustainable, electric-first logistics solutions that enhance cost efficiency, reduce environmental impact, and improve service reliability. With strong expertise in process optimization, vendor management, and strategic planning, Lavish consistently ensures timely delivery, operational excellence, and continuous improvement across supply chain operations.

2. Ankit Garg

A seasoned supply chain professional with 8 years of experience, Ankit has demonstrated strong expertise in managing distribution channels and vendor networks across dynamic logistics environments. He specializes in implementing technology-driven operational strategies that enhance efficiency, transparency, and service reliability. With a client-centric approach and strong analytical capabilities, Ankit leverages data-led logistics management to streamline processes, optimize resource utilization, and ensure seamless execution. His focus on operational excellence and relationship management consistently supports long-term client satisfaction and retention.

About Us

- EV Go Movers Logistics India Private Limited is a fast-growing logistics and supply chain service provider
